

Product EOL Notification

Tracking number: TD063821

Model Description: LEC-3340A/B/C/D
IEC 61850-3 Compliant 3U Rackmount Controller System for Power Substation

Date of publication: 2024/5/15

EOL Cause Description:

- **Product strategy** □ **Material discontinue offering**

Due to product strategy, Lanner regrets to inform you that we will discontinue LEC-3340A/B/C/D.

By way of this notice, we will make every effort to ensure minimal impact to you and your business relationships during this end-of-life (EOL) activity.

Availability Information :

- **EOL model status**

EOL Notice Effective Date : 2024/05/15

Last Order Date : 2024/12/15

- **Substitute model status**

LEC-3340E/F/G : It is designed with Intel KABYLAKE-H platform, main function is to be applied on control system for Power Substation, Industry Automation.
